San Diego, CA 92108 | C: (858) 414-8599 | dylan.fricks2.0@gmail.com  
www.linkedin.com/in/dylan-fricks-02abb249

## Summary

Software Engineer offering five years experience in the IT industry with a focus on Front-End Development and implementation. Greatest familiarity is in JS/Typescript and Angular Framework.

## Skills

Angular2-7	C#/ASP.Net	Cross Browser	Amazon Web Services
Javascript/Typescript	Responsive Design	Compatibility	Adobe Photoshop
ngBootstrap/ngMaterial	HTML5/CSS3	Unity3D	Actionscript

## Accomplishments

- Worked with Principal to create a multi-site Angular5 project, handling UI while Principal handled API.
- Sat second chair in developing kiosks for clients such as Fuddruckers and Burger Boss.
- Created or maintained digital menu boards for many restaurants, including Fuddruckers.
- Designed application website and developed front-end application code for HaktRadio - an internet radio player utilizing a third-party web-service, which was successfully implemented by Mako-Labs.
- Created and supported Large Multi-brand website (over 100 brands) using ASP.Net, C#, MySQL, and Amazon Web services while improving brand creation process by documenting workflow and automating parts of it.

## Experience

### WEB DEVELOPER

**Gravity Ai** -- San Diego, Ca September, 2018 to February, 2019  
Developed responsive SPA commercial website's front end framework, forms, and UI/UX using Angular and Bootstrap.

### WEB DEVELOPER

**Sterkly SD&M**-- Carlsbad, Ca February, 2018 to August, 2018  
Worked with Principal Engineer to create a large multi-site angular project while learning technics to produce pixel-perfect replication to design specifications.

### FRONT END DEVELOPER

**Task Retail Technologies** -- San Diego, Ca August, 2016 to February 2018  
Worked with Creative Department in developing and maintaining digital menu boards and kiosks for food-based retail clients. Maintained and changed functionalities according to client requests.

### SOFTWARE ENGINEER

**Mako-Labs** -- Cardiff, Ca January, 2014 through January, 2016  
Collaborated with product and engineering team members to define and develop new product concepts. Coordinated with QA testers for end-to-end unit testing and post-production testing. Updated, modified and expanded existing Web-based programs. Resolved customer issues by establishing workarounds and solutions and by debugging and creating defect fixes.
