## RESUME OBJECTIVE

Web developer and multimedia artist with 5 years of experience developing graphics, video, and web-based content with a strong understanding of aesthetic and design principals. I am a fast learner and team player that can build professional websites from the ground up.

## EXPERIENCE

### WEB DEVELOPER

*Freelance / June 2017 - Present*

- Coordinates and communicates with customers to plan web development projects from concept through completion, utilizing a variety of web development tools and technology.
- Serves as webmaster for several projects promoting local business.
- Collaborates with clients to generate web content.

### MULTIMEDIA ARTIST

*5 Elements Martial Arts / June 2014 - Present*

- Edits video footage for promotional purposes.
- Retouches and restores images based on the needs of project.
- Customizes CMS GUI for maximum compatibility across platforms and browsers.

### VIDEO PRODUCTION SPECIALIST

*Freelance / August 2013 - Present*

- Provides numerous freelance services for individuals and companies. The projects range from strictly camera work, editing only, and services that require both using different editing techniques per project needs.

### GRAPHIC DESIGNER

*Freelance / August 2013 - Present*

- Manages and coordinates graphic design projects from concept through completion.
- Collaborates with clients to create vision, conceive designs, and consistently meets deadlines and requirements.
