

Corey Burkhart

San Diego, CA
(619) 922-0465
hello@coreyburkhart.com

Tested and team oriented Javascript Developer with passion for robust high quality software. Identified and resolved development inefficiencies at Cinchapi by introducing a core library for code reuse in addition to championing a test driven development cycle. A self starter proven with the ability to efficiently and creatively solve problems.

EXPERIENCE

Cinchapi, Atlanta (Remote) — Frontend Web Developer

APR 2017 - JULY 2018

As a frontend developer for the automated data analytics startup, I worked closely with all roles to plan, design, and build a highly visually interactive analytics platform, primarily utilizing Vue, D3, and SCSS.

- Introduced software testing to the development cycle, reducing bugs in the rapidly growing platform.
- Introduced a documented core library to manage custom components across distinct projects.
- Debugged complex bugs involving a high degree of state and computation.
- Efficiently debugged state-laden, asynchronous, and performance sensitive issues.
- Collaborated in SCRUM environment with CEO/Backend Developer to deliver pixel perfect features.
- Tasked with high degree of responsibility for timely delivering interactive high quality product features.

EDUCATION

Self Study

JUL 2018 - OCT 2018

Hands-on project centered study expanding knowledge of the server-side environment with emphasis on Node.js REST APIs, microservices, MongoDB, Testing, and automated deployment.

Self Study

DEC 2016 - APR 2017

Utilized online resources to gain functional proficiency in frontend web development with emphasis on modern tooling.

Grossmont College, El Cajon

JAN 2014 - DEC 2016

Earned 78 credits towards BS in Computer Science.

STRENGTHS

Strong Problem Solver

Team player

Adept communicator

Learning addict

Adaptable

TECHNICAL SKILLS

JavaScript(ES6+), React, Redux, Vue, Vuex, D3.js, Jest, TestCafe, CircleCI, Node.js, Express, Git, SASS/SCSS.

LANGUAGES

English
