Yashwanth Reddy K

Data Scientist

yashwanthreddy833@gmail.com
9912719084
Hyderabad, Telangana

Data Science aspirant, skilled in Python, ML/DL/AI, with a demonstrated history of working on processing raw data into useful information and conducting data visualization to understand trends, outliers, and patterns. Possesses an understanding of machine learning and statistical modeling algorithms/techniques for differentiating product offerings and enhancing customer satisfaction.

Projects

Payment Gateway Fraud Detection

- ML project for a payment gateway firm which predicts whether the transcation made is fradualent or not.
- Built a model on the dataset for predicting output using different algorithms and used f1_score as an error metric and got a score of 93%

Education

International School of Engineering – PGP , Data Science

April 2020 - current   Gachibowli,Hyderabad

Keshav Memorial Institute of Technology –
B.Tech, Electronics and Communication Engineering

August 2015 - May 2019   Narayanguda,Hyderabad

Skills

Python (NumPy, Pandas, Scikit-learn, Tensor-flow, Keras), Statistical Analysis, Data Analytics, Data Mining, Data Modelling, Machine Learning, AI, Deep Learning, NLP.
